

Student Support Services

To provide a safe and convenient environment, TUOMS provides a range of services for its international students.

1. On-campus Housing

Living in university dormitory or TUOMS residence halls gives our international students security and peace of mind.

Single international students are required to live in campus. Please kindly be informed that accommodation of single students in any residential house not affiliated to TUOMS is prohibited by Iranian law and all single international students must stay in dormitories belonging to the University.

In the case of married students currently TUOMS cannot provide housing for other family members (wife/husband/children, etc.) but if they wish to be accommodated in the dormitory of single students, the university can help them get a room. Also, if married students want to have their family members accommodated in the city, they might refer to the Immigration and Passport Office and complete the process to obtain the needed permissions. Afterward, they can rent a flat outside the university.

2. On-campus Dining

With dining halls, schools' cafeterias, shared kitchens ('gyp rooms') and meal plans, TUOMS provides convenient access to daily meals for all students.

Students living on campus are provided with breakfast, lunch and dinner on weekdays.

Breakfast and dinner meals are pre-packaged, while lunch is served at dining halls.

Schools' cafeterias are good sources of snacks and drinks throughout the day.

There are shared kitchens ('gyp rooms') available in most residence halls usually equipped with cooking facilities. These rooms enable you to cook for yourselves.

3. Health Services

Health and happiness of student community is one of TUOMS priorities. To respond to your health and wellness needs, we provide you with medical and mental health services.

For any health related matters students can refer to clinics, health centers and hospitals affiliated to TUOMS.

University life brings challenges such as adjusting to a new environment and the general stress of student life. Sometimes it can be difficult to reach out to family and friends or deal with things by ourselves, in these times our student counselling and psychological services office will assist you to face and overcome the problems.

4. Health Insurance / Medical & Personal Accident Insurance

TUOMS requires that all its international students carry adequate insurance coverage to provide protection against unexpected accidents and illnesses.

TUOMS student insurance plan is an annually plan and students will purchase the plan at

their own expense.

Our Student Services Office can provide detailed information about services provided to support students.
